

# **Model MPW**

## **Mini Parts Washer**

- **Ideal for cleaning small parts such as: screw machine products, stampings, and bearings**
- **Stainless steel construction for long life**
- **Automatic loading, cleaning, and unloading**
- **Small footprint (less than 9 ft.<sup>2</sup>) for work cell applications**
- **Portable with forklift pockets and optional casters**
- **GE Compliant**

 **STOELTING**<sup>®</sup>  
*A Stainless Reputation.*

## *The MPW Cleaning Cycle*

**The parts drop into an agitated solution to begin the cleaning process.**

- ▶ Oil skimmer removes floating petroleum based waste oils (coalescer optional).

**In addition to being cleaned while submerged, parts are continuously sprayed as they travel up the conveyor.**

Adjustable spray pressure w/gauge. Quick release spray header for maintenance.

**At unload, parts are stripped of excess solution by ambient air blowoff. Heated blowoff module optional** (see below).

- ▶ Variable speed conveyor (1-9 ft./min.) to match speed of auxiliary equipment.

### ***Optional Heated Blowoff for Enhanced Drying***

Field retrofit available;  
Four top high-velocity air knives.
